Estay Electronics in partnership with Castor Marine will help to assess each vessel and advise the best solution for adopting Starlink. Service and support contracts are provided directly to the customer by Castor Marine, as the Authorized Starlink service provider.
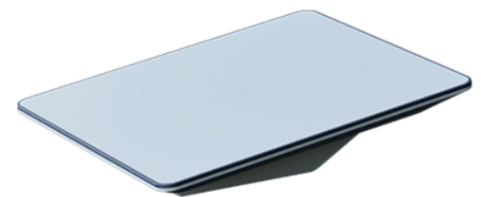

- Starlink can be integrated with existing VSAT, LTE (4G/5G), Iridium, and Fleetbroadband connectivity to create seamless service.
- Starlink is a cost-effective alternative to replace LTE (4G/5G) services without range limitations.
- As you only need a small antenna, Starlink can replace costly Fleetbroadband subscriptions onboard whilst offering higher speeds and volumes for the same budget.
- Allows to reduce VSAT bandwidth and costs, while keeping VSAT as a back service and for locations not served by Starlink.

Ordering Starlink from Castor Marine guarantees premium support and seamless integration.

STARLINK MARITIME KIT

The Starlink Maritime Premium Kit consists of two Flat High Performance Starlink antennas including wedge mounts. The Starlink antenna and power supply are water jet and dust resistant (IP56). Up to 6 Starlink antennas can be combined on a vessel or rig to provide a 900/60 Mbps service.

Antenna	Electronic Phased Array
Antenna Size	57.5x51.1cm
Orientation	Fixed
Environmental Rating	IP56
Snow Melt Capability	Up to 75mm / hour (3in / hour)
Operating Temperature	-30°C to 50°C (-22°F to 122°F)
Field of View	140°
Average Power Usage	110-150W
Wind Rating	Survivable : 280 kph+ (174 mph+)
Mounting	Wedge Mount Kit Included

FLAT HIGH PERFORMANCE ANTENNA

Starlink Kit	Description	Price
Commercial Kit For Maritime Use	Flat High Performance antenna, Wedge Mount, Power Supply, 8m (26.2) POE, 5m Ethernet Cable, Wi-Fi Router, Router Mount, and Power Supply Mount.	Ask us
Premium Kit For Maritime Use	2 Flat High Performance Antenna including Wedge Mounts, Power Supplies, 8m (26.2 ft) POE, 5m Ethernet Cables, Wi-Fi Routers, Router Mounts, and Power Supply Mounts.	Ask us

STARLINK SERVICES

STARLINK MARITIME SERVICE PLANS

Plan	Priority access data	Performance Goals		
		Service availability	Latency	Bandwidth
Commercial	1TB/Monthly	>99%	<99ms	40-220 Mbps download 8-25 Mbps upload
Premium	5TB/Monthly	>99%	<99ms	60-250 Mbps download 10-30 Mbps upload

When priority access data volume cap is reached, the Starlink service is throttled to 1/1 Mbps unless additional Priority Access is purchased.

Starlink Maritime services can be activated/ suspended/ changed on a month to month basis.

STARLINK MARITIME COVERAGE

Starlink Maritime service is now global, providing connectivity to the vast majority of the Earth's oceans and seas.

Coverage in territorial waters depend on the licensing status of Starlink in the country.

STARLINK PREMIUM SUPPORT

Email Support	✓
Telephone Support (24/7)	✓
Chat Support (24/7)	✓
Response Time	**4 Hours**
Extended Hardware Warranty with direct replacement from stock	✓
Online Portal	✓
Insight in Performance	✓
E-mail notification when reaching 80 and 100% priority data volume cap	✓
Enable/disable Out-Of-Bundle Priority Data	✓
Fleet overview	✓
Starlink network maintenance/ outages messages	✓
Invoice based on Purchase Order	✓
